BSP803F

Adapter - 3-pin XLR female to RJ45

Highlights:

- Ideal for installation or production applications
- Easily reduce additional cabling costs
- Heavy-duty molded housing

Product information:

The BSP803F is a 3-pin XLR female to RJ45 straight adapter. This adapter can transform the connection of an XLR cable (as used for DMX lighting control) to RJ45 ideal for installation or production applications. This adapter reduces additional cabling costs, especially when CAT networking cables are standard available in buildings. Built with a heavy-duty molded housing it is a must for every toolkit.

Allows the use of standard CAT5E (or better) networking cables for DMX signal transmissions.

Product Features:

Application	AV & IT
	Rental & MI
Series	Connect Series
