14 x 16 Floor Tom Case

Revolutionary Roto-molded D-shaped drum case design with molded in feet for upright positioning and stability. Patented Roto-X pattern for durability and reliable stacking.

Sure grip handles with a 90c³ stop are designed for easy lifting and transporting traditional floor toms, but with the leg hardware it requires a wider interior than equivalent mounted toms, ideal for floor toms 16" in diameter and 14" deep.

Cases have revolutionized affordable drum protection. The entire line is truly a breakthrough in case protection for drums. With padded interiors for added protection.

Features

- Stackable for convenient storage
- Pedestal feet
- Padded interiors for added protection
- Wider interior for leg hardware
- Heavy-duty web strap for reliable closure
- Sturdy high tension slide release buckle

Specification	Imperial	Metric
Exterior	Hard
