

Hear the truth™

JBL® FLIP

Portable, 2 x 5-watt stereo speaker with a Li-ion rechargeable battery, built-in bass port and wireless *Bluetooth*® connection

LEGENDARY SOUND SINCE 1946

A SMALL SPEAKER MAKES A BIG IMPRESSION.

Introducing the JBL® Flip portable wireless stereo system. It features two high-performance drivers, a built-in bass port and wireless *Bluetooth*® streaming. And it delivers impressive JBL sound from a powerful, portable speaker.

The JBL Flip with *Bluetooth* is an ideal audio solution for smartphones and tablets. With two 1-5/8-inch (40mm) drivers, a built-in bass port and an acoustic volume of 200cc, the JBL Flip delivers legendary JBL sound with exceptional bass – all in a portable stereo speaker that travels easily with you. You can connect the JBL Flip wirelessly to any *Bluetooth*-equipped device, and enjoy up to five hours of playback time from the built-in Li-ion rechargeable battery. With performance that comparably priced products can't match, the JBL Flip is the ultimate wireless portable stereo speaker for any environment – or any portable device.

HIGHLIGHTS:

- *Bluetooth* technology
- Built-in bass port
- Digital signal processing
- Built-in microphone and call answer button
- Five-hour, Li-ion rechargeable battery
- Versatile, portable design
- LED indicator

Finish:  

KEY FEATURES

JBL® FLIP

Hear the truth™

Don't let its size fool you. The JBL Flip stereo speaker delivers room-filling audio with serious bass from a compact speaker that's ready to roll wherever you go.

Bluetooth technology

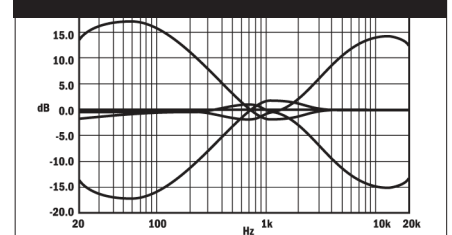

The JBL Flip portable speaker streams stereo music wirelessly from any *Bluetooth*-equipped device, making JBL sound available for a wide range of portable devices, including tablets.

Built-in bass port

Some portable speakers produce less-than-impressive bass. Not JBL Flip speakers. The JBL Flip has a built-in bass port, and generates bass that comparable portable products simply can't equal.

Digital signal processing

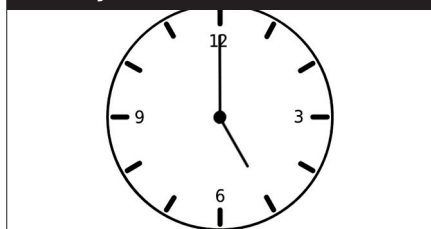

JBL has more than 60 years of expertise producing high-quality sound in venues around the world. The JBL Flip uses this expertise and employs digital sound processing to generate room-filling audio with great bass from a compact speaker.

Built-in microphone and call answer button

That's not just the power of JBL sound calling you. The JBL Flip has a microphone and a call answer button so you can answer phone calls from the speaker.

5-hour, Li-ion rechargeable battery

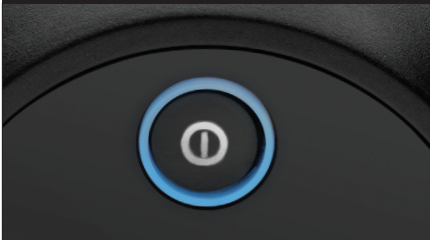

The JBL Flip stereo speaker has a built-in Li-ion rechargeable battery that provides up to five hours of playback time. You can easily recharge the battery using the adapter, which saves you battery hassles and money.

Versatile, portable design

The JBL Flip stereo speaker plays from either a vertical or horizontal position, so you can place it in a variety of locations. And it fits easily into a backpack, so you can take it from one place to the next.

LED indicator

A clearly visible LED lets you know when the built-in Li-ion battery needs to be recharged, as well as when the JBL Flip is in *Bluetooth* listening or pairing mode.

SPECIFICATIONS

JBL® FLIP

Hear the truth™

If there's a JBL logo on the speaker, there's JBL sound in the room.
