Delay FX: Sync Delay Effekt

Filter Cutoff: Lowpass Filter

Interface

The interface of the Alpine Volksmusik Library provides an easy way to customize the sound of the instruments. In addition to the standard controls volume, pan, and reverb, each instrument / patch has its own parameters, incl. some special features (see above).

1. Controls:

Here you can change the parameters to your liking

2. Info:

The Info icon at the bottom left (if provided) changes the instruments window to the info pane. Besides some information about the instrument, you will also find all special features and keyswitches here.

3. Instrument window:

Displays the instrument or musician. In info mode, it shows the info details of the patch.
