

Connecting the BOSS TONE STUDIO Android App to the WAZA-AIR Unit

© 2019 Roland Corporation

01

For details on how to use BOSS TONE STUDIO, refer to the “Using BOSS TONE STUDIO for WAZA-AIR” PDF.

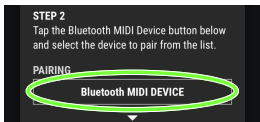

1. Power-on the WAZA-AIR unit and the mobile device.
2. In your mobile device's settings, turn Bluetooth on.

NOTE

Even if the "Available devices" list shows "WAZA-AIR MIDI," don't tap it.

3. Start the "BOSS TONE STUDIO for WAZA-AIR" app that you installed in your mobile device.
4. Tap [Bluetooth MIDI DEVICE] that appears in the screen, and then tap "WAZA-AIR MIDI."

Verify that "*" is shown at the upper right of WAZA-AIR MIDI.

WAZA-AIR MIDI *

- * If “WAZA-AIR MIDI” is not shown, tap “SCAN” at the very bottom of the Bluetooth Devices screen, and search again.

5. Tap the Android back button to return to the previous screen.
6. Verify that “WAZA-AIR MIDI” is shown for “CONNECT.”

STEP 3

Select the device to connect in the box below.

CONNECT

WAZA-AIR MIDI

7. Tap [OK] to start communication.

If you can't connect

Check each of the following five items one at a time.

- 1 In the settings of the WAZA-AIR unit, is the Bluetooth function turned on?

Verify that the WAZA-AIR unit's Bluetooth indicator is blinking or lit.

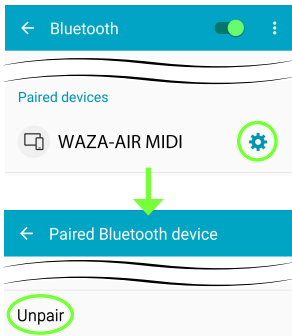

If it is unlit, long-press the Bluetooth Multi Function button to make it blink.

2 In step 2 (p.2) of the procedure, could you have tapped a model name shown on the mobile device?

When you turn the Bluetooth switch on in step 2, "WAZA-AIR MIDI" might appear in the list of "Available devices" but you should not tap it. If you tapped it, clear the pairing, and try the procedure again from step 1.

Clearing the pairing

1. Tap the gear icon shown beside "WAZA-AIR MIDI" in "Paired devices," and tap "Unpair."

2. Turn the Bluetooth switch off.

- 3 Turn Bluetooth on and off once again

Turn Bluetooth on/off again.

4 Close all apps, and try the procedure again from step 1 (p.2)

If you've checked **1**–**3** and still cannot connect to the app, close all apps that are running on your mobile device.

If the WAZA-AIR is paired, clear the pairing.

Closing the app

Tap the Android multitasking button, and swipe right on the app screen.

5 When using on Android 6.0 or later, turn Android Location mode on

6 Power-off the mobile device and the WAZA-AIR unit, and then power them on again

If you've checked **1**–**5** and still cannot connect to the app, power-off the mobile device and the WAZA-AIR, wait for about 10 seconds, and power them on again.

If the WAZA-AIR is paired, clear the pairing.

If you've checked **1**–**6** and still cannot connect to the app, contact your dealer or a Roland customer service center.
